

Reception's take home task: Pond dipping and rock pooling

A homework task for parents and children to share

Find out about what lives in a pond or rock pool. What did you find? Take photographs and label your finds.

Do the same creatures live in a pond and a rock pool? When you have gathered all your information, you can display it anyway you want to. You may want to design a poster, make an information book.

There is no right or wrong method!

Please remember to name your wonderful work.

To be completed and handed into school by: Friday 25th May 2019
